

ABUS Detecto 7000

Tootekirjeldus

Double secured with lock and alarm system in one device: Abus Detecto 7000 RS1 Brake Disc Lock

The 3D Position Detection Alarm sounds in case of vibrations and smallest movements. After 15 seconds, the Detecto 7000 RS1 will automatically re-arm itself. The Detecto 7000 RS1 also stands out in terms of durability: The bolt, body and structural components of the internal mechanics are made of specially hardened steel. The lock is fitted with an ABUS Extra Classe cylinder and comes with a coded reversible key.

Features - Abus Detecto 7000 RS1

- Alarm function which emits a 100 dB noise for 15 seconds and then automatically re-arms itself
- 3D position detection – detects vibrations and the slightest movement in all three dimensions and triggers the alarm
- Acoustic and optical signal (LED, 3 colours) indicate battery status and active status
- Single-hand operation thanks to the patented “Snap'n Go” system – lock closes automatically when pressed on the brake disc
- The bolt, body and the structural parts of the locking mechanism are made of specially hardened steel
- Great protection for when there is a medium risk of theft
- Recommended for use in supervised car parks or for short parking periods
- Ideal protection for scooters and motorcycles
- ABUS Extra Classe cylinder with coded reversible key

- Automatic keyhole cover to protect against dirt and corrosion
- Neoprene transport bag is included

Product features

- Level: 13 of 20
