

ABUS Granit City Chain XPlus 1060

Tootekirjeldus

The most high-tech, high-security chain lock that ABUS makes for the bicycle, the Granit CityChain XPlus 1060 is designed to keep your bicycle safe in areas of high risk.

The lock features the best German engineering, materials and all the patented ABUS technology to makes this lock the best you chain you can buy. ABUS patented Power Cell Technology offers the highest protection against hitting and pulling attacks and the Power Link Technology offers a direct locking of the chain to the Power Cell for even greater security.

The 10mm hexagonal links, lock body and supporting elements of the lock are all made of ultra high quality, special temper hardened steel; the interlocked lock body cover protects against brutal opening methods and the X-Plus Cylinders offers extremely high protection against picking.

- 10mm hexagonal hardened steel chain with protective fabric sleeve
- Two keys supplied with lock, one LED-lighted
- This lock can be keyed alike with other XPlus Cylinder Locks offering greater convenience for users of multiple locks
- ABUS Code Card for additional or replacement key ordering
- Automatic keyhole cover protects against dirt and corrosion
- Industry leading corrosion resistance makes this lock incredibly durable.
