

ABUS Tresor 1385/110

Tootekirjeldus

Simple and modern

With the Tresor 1385 you will find a suitable chain lock to secure your bike. Equipped with a number combination, the lock is easy to use. The complete plastic coating of the lock body and the distinctive textile tube of the chain avoid damage to the paintwork of the bike you want to secure. The combination lock is particularly suitable for use by several people.

Features of the ABUS Tresor 1385 chain lock:

- Good protection for medium theft risk
- The greater the length, the easier it is to connect to a fixed object
- 7 mm thick square chain with textile tube to protect against paint damage
- The chain is made of specially hardened steel
- 2-component number rollers ensure permanent legibility of the numbers
- Special scanning protection for increased security against unauthorised appropriation of the numerical code by manipulation of the mechanism
- Individually adjustable numerical code
- Convenient transport by compact folding of the chain around the seat post tube (for length 85 cm)
- For the protected transport we recommend e.g. the frame bags ST 2200, ST 2250 or ST 2012
- Security Level Bike 7/15
