## **ABUS Bordo Granit XPlus 6500**

## **Tootekirjeldus**

- 6500 Folding Lock is quite literally a tough nut for bike thieves to crack since it incorporates "granite"
- 5.5mm bars manufactured from specially hardened steel and connected with special rivets, which offer protection against even the most determined of attacks.
- The ABUS Link Protection Shield ensures that these rivets are not only flexible, but also extremely resistant to attacks involving sawing.
- The picking-resistant XPlus precision disc cylinder from ABUS also has a lot to offer and guarantees outstanding protection against attempts at tampering.
- This combination has earned the BORDO GRANIT XPlus<sup>TM</sup> 6500 Folding Lock a phenomenal top score of 15 in the ABUS Security Level System.
