Padlock ABUS Granit 37RK/80		188.80 ?

[illegible] system provides the greatest resistance to "intelligent" attempts at entry, such as lock-picking and manipulation. The [illegible] makes the ABUS Plus locking system one of the most secure in the world. The Granit range can be combined with strong chains, e.g. to protect a valuable motorbike or expensive building equipment.

[illegible] 6 tonnes. High-quality materials and careful finishing are the basis for the quality of these padlocks made in Germany. 2 keys supplied, one with LED Torch. It has a black Granit coating for optimal corrosion protection and characteristic of these padlocks.
