

TOOTENIMETUS	SOODUS	HIND
Haspe ABUS 110/155	It has a hardened steel eyelet, which makes it much more difficult to break open. The screws are concealed after assembly and the hinge pins are protected against being driven out.	23,30 €

Because the following applies to every security solution: The longer it takes a thief to break into something, the better the chances that he will give up and move on.
