

ASSA 850C-50

Tootekirjeldus

ASSA ABLOY Motor Locks 850C/851C-50 are motorized hook bolt locks. They are suitable to be used as a night and safety-lock or as a Daytime lock in doors with high security commercial, offices and industrial premises. When used as night and safety-lock doors should be supplemented with a daytime lock for example Solenoid Lock ASSA ABLOY 884-50 or electric strike ASSA ABLOY 585.

Features:

- Opening speed approximately 0.2 seconds
- New hook bolt and lever latch for increased strength and side pressure
- LEDs and switches for initiation / status of the DAC
- The lock can be opened with a key / thumb turn
- Backset 50 mm
- Built-in hidden door position sensor (magnet in the strike plate)
- Can be combined with other Hi-O devices without control unit, for example daytime lock, automatic doors and card readers.
