

Võutmete lõikamismasin Keyline T-Rex

Tootekirjeldus

- T-Rex is a mechanical key cutting machine for laser, dimple and tubular keys. It is ideal for specialists needing a professional and versatile solution to integrate their key cutting capabilities.
- The innovative clamp mounted on the T-Rex ensures a high clamping structure for standard, Cisa®, VAG, and tubular keys and for a wide variety of other key types
- The T-Rex is also equipped with an led panel with buttons and arrow keys to facilitate the calibrating and cutting operations.
- The electromechanical calibration function with visual and audible checking, together with the large chip drawer and the automatic stop and accidental start prevention systems of the motor guarantees the complete safety of every process.
- The whole working area is lighted by special led lights that prevent any reflected glare.
- Thanks to its structure with carriages moving along ball bearing guideways, vertical suspension for dimple keys and side suspension for laser keys, the T-Rex offers a completely vibration free and incredibly fluid performance in the cutting of keys.
- The system of ergonomic levers and knobs, the wide platform, the excellent visibility of the working area and the integrated cutting mills holder bay make T-Rex exemplary in terms of ergonomics and efficiency of use.
