

ekey sLine sÄµrmejÄljelugeja komplekt

Tootekirjeldus

The ekey sLine fingerprint set is a biometric access solution that provides keyless access to buildings using intuitive touch operation. Thanks to the low installation depth, the fingerprint can be installed in intercoms and hollow spaces (e.g., mailboxes). The set includes the ekey sLine fingerprint and the ekey controller REG. The system is administered via the ekey bionyx app.

Advantages of the system:

- The finger as a key
- Maximum security
- Home entrance with a smart experience
- Flexibly expandable with new features and devices and much more

Compatible products:

- ekey [controller expansion module](#) - 203210
- ekey [APPMODULE KNX](#) - 270017
