

ABUS Ivera Cable 7220/85

Tootekirjeldus

- The Ivera 7220 is a 20 mm high quality steel cable. New, functional, long-life and highly-flexible mesh sleeve prevent from damage to the bicycle's paintwork. The case as well as supporting elements of the locking mechanism are made of special hardened steel.
- The lock body with softcase coating prevents from damage to the bicycle's paintwork. The Ivera is equipped with the ABUS automatic cylinder with drill-protection and user-friendly reversible key.
- Security level 6 offers good protection at low theft risk. It is recommended for securing entry level bicycles. The longer the cable, the easier the bicycle can be locked to a fixed object.
- The cable locks stand out due to good flexibility and quite low weight. The extraordinarily thick cable has an additional deterrent effect.
- Ivera RBU - Bracket with flexible steel strap, suitable for different frame shapes with a diameter of 20 - 42 mm and with a preparation for the seat post clamp. The holder is available as separate accessory.
