ABUS Steel-O-Chain 4804C/75 The hi-tech fabric technology has many other benefits aside from its endurance. The hi-tech fabric is also durable and highly flexible, as well as being weatherproof and resistant to liquids. This prevents water from being absorbed by the fabric, thereby protecting the locks against corrosion. Its durability is so much that there's no excuse for not securing your bicycle, even if the weather is bad and you worry about the lock getting dirty.
