 ABUS Steel-O-Chain 5805K/75. This is a flexible chain lock made of special steel, 5 mm thick, with a square cross-section. It is designed for use in various regions with a low risk of theft. Especially if you often lock your bike in different places, a flexible chain lock is highly recommended. The clear advantage of the 5 mm thick square chain made of special steel of the Steel-O-Chain™ 5805K chain lock is its flexibility. This offers many possibilities to securely connect the bike to different objects. For example, firmly anchored bicycle stands or lampposts are well suited, if the bike does not obstruct anyone.	31.06 ?	36.54 ?
