

TOOTENIMETUS	SOODUS	HIND
22373 ABUS 110/230	It has a hardened steel eyelet, which makes it much more difficult to break open. The screws are concealed after assembly and the hinge pins are protected against being driven out.	42,88€

attached at the corner. Because the following applies to every security solution: The longer it takes a thief to break into something, the better the chances that he will give up and move on.
