

ABUS 235Z

Tootekirjeldus

The 235Z series consists of traditional ABUS lever padlocks in different sizes from 40mm to 60mm body width. With the lock body made of galvanized steel and the brass plated keyhole cover the 235Z is extremely resistant against rust and thus ideal for outside use.

- Steel shackle protected against corrosion
- Pipe keys
- 40 mm: 4 levers
- 50 mm: 6 levers
- Key hole cover brass plated
- Lock body made of galvanized steel, ideal for outside use
