

ekey Modul Gira

Tootekirjeldus

The ekey Modul for Gira System 106 ST is a build-in module that covers the ekey finger scanner for integration in the Gira System 106 door station. The ekey Modul is intended for use in both domestic and business applications. The ekey Modul is designed for fixed mounting on the ekey finger scanner, in the Gira System 106 door station, and for use in unprotected outdoor areas.
