

SEATYLOCK Foldylock Compact

THE **LIGHTEST** OF ITS KIND

Tootekirjeldus

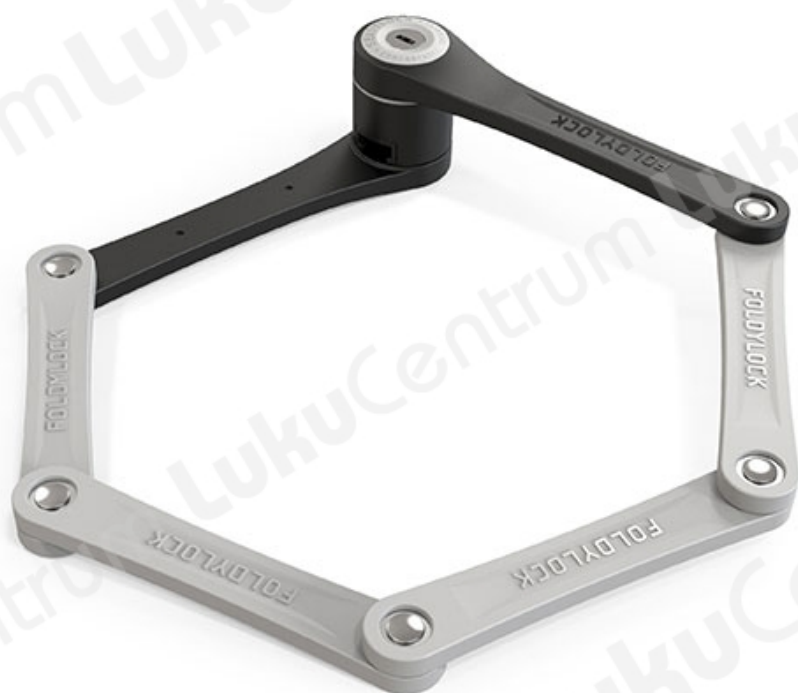

- **Lightweight for Its Security Level-** The Foldylock Compact has a great weight to security ratio in its category. This lightweight easy to carry lock weighs just 1 kg (2.2 Lbs) but provides heavy duty maximum security protection. Ranked as a solid secure silver bike lock.
- **Patented Ultra Protected Rivets-** Patented technology in our sturdy anti tamper rivets makes this bike lock incredibly durable. Hardened, weatherproof & tough, it can withstand a variety of attacks - even directly to the rivet. This unique feature makes the Foldylock Compact a true secured folding lock.
- **Rattle elimination for silent ride-** Cut the rattle! Our super quiet mounting bracket is specially designed so you can enjoy a calm, silent ride free of noisy & annoying rattling.
- **Product Design Award Winner for 2020-** Our innovative cutting edge technology won us the 2020 European product design award! A winning combination of stylish design & trusted high-security protection.

- **Rigorously tested to defeat theft attempts-** We tested the foldylock compact by using a wide variety of stress tests, simulating real-life attack strategies by thieves. Foldylock Compact beat tests including bolt cutters, crowbars and freeze attacks.
- **Reliable, easy to use & carry-** Professional light weight & cut resistant theft deterrent from SeatyLock. Compact & easy carry bike accessory from a trusted name in the bike security.
- **Automotive standard keys-** Our super secure bike keys are as safe as car keys! Forget flimsy bike keys - Foldylock keys meet automotive industry standards for security.
